

ORTHEON MEDICAL UNDER NEW OWNERSHIP

Press Release to Follow

Columbus, Ohio - Ortheon Medical is attaining a smooth transition to its new home in Columbus, Ohio. The assets of Ortheon Medical, LLC. have been acquired by Tendon Technology, Ltd. DBA Ortheon Medical, which is lead by two of the original inventors of the Teno Fix®. The revolutionary Teno Fix® system under the label of Ortheon Medical continues to be available without interruption in service or distribution.

Tom Ward, Manager of Tendon Technology and Dr. Lawrence Lubbers are part of the original team of inventors of the Teno Fix® technology. Tom's lifelong business experience and medical product development history along with Dr. Lubbers' clinical expertise and experience make for a great team. Combine these two leaders with the extensive medical device engineering and manufacturing skills of Tendon Technology to provide the excellent quality found in Teno Fix® and ACP™ Suture Cutter products.

Doctors and patients can be assured that product and product support will continue to be available and that a familiar voice will continue to provide customer assistance. Tendon Technology DBA Ortheon Medical plans to issue an official press release in the coming weeks.

About Ortheon Medical

Ortheon Medical is a privately held medical device company that develops innovative technologies to enable surgeons to perform safe and effective mechanical, repeatable tendon repairs. The Teno Fix® system has the potential to reduce costs and the need for repeat surgeries often associated with hand procedures. The company believes this may be applicable to other areas of the body including Achilles and Rotator Cuff repair. For more information about Ortheon or Teno Fix®, contact the company at 866-TENOFIX.
